What is a rakworx Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center designed for rapid deployment, scalability, and growth. Our Small Chamber add-on optimizes airflow, enhancing cooling by containing cold air.

What is a DC series cabinet?

Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature-rich cabinets.

Why are cabinets important in a data center?

Cabinets are one of the most important items in any data center that house different types of IT equipment. We offer different type of cabinets. When selecting a cabinet, it is critical to choose one that can adapt to your IT equipment needs and support your infrastructure to function in the most energy-efficient way possible

What size server & network cabinets are available?

With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and depths of 36" to 54", providing server and network cabinets that meet any specific requirements.
