What is goodwe lynx C 60kWh?

The GoodWe Lynx C 60kWh is an advanced energy storage system, specially designed for commercial and industrial applications. As an addition to the GW60KWH-D-10, a 120kWh installation can be created with this. With its modular construction and robust design, this battery solution offers a reliable and scalable solution for energy management.

Is the lynx C 60kWh suitable for a hybrid inverter?

The Lynx C 60kWh is designed for seamless integration with the GoodWe ET 15-30kWh hybrid inverters. Thanks to its IP55 protection class and C4 corrosion protection, the battery is suitable for both indoor and outdoor installations. Max.

How long does a goodwe energy storage system last?

10 years of performance warranty: GOODWE warrants that, for ten (10) years, the Energy Storage system retains either sixty percent (60%) of Usable Energy 60 kWh or for a Minimum Through Output Energy 197 MWh which is calculated from the earlier one of installation date or 6 months after Energy Storage system production date, whichever comes first.

How does the lynx C 60kWh work?

The modular design of the Lynx C 60kWh allows for easy system expansion. By adding up to two additional battery modules, the total storage capacity can be increased to 180 kWh. This flexibility allows businesses to adapt their energy storage to changing needs.
