---

Luminant, a subsidiary of Vistra Energy (NYSE: VST), announced that its Upton 2 battery energy storage system project has finished construction and began operating on Dec. 31, 2018. The ...

Athens, the cradle of Western civilization, now racing to become Europe's energy storage trailblazer. The Athens grid energy storage system isn't just another infrastructure ...

Athens Renewable Energy is a proposed project combining 250-megawatts of solar with a 250-megawatt-hour lithium-ion battery energy storage system (BESS). Located in Placer County, ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

Projects with a combined capacity of 299.8 MW are the final winners in Greece's second tender for battery energy storage systems (BESS) capacity, according to official data released by the ...

Terna Energy's hybrid system near Corinth combines solar panels with flywheel storage--spinning steel discs that store energy kinetically, with 95% efficiency.

Athens Renewable Energy is a proposed project combining 250 megawatts of solar with a 250-MWh lithium-ion battery energy storage system (BESS). This project will be located in Placer ...

Investors rush to complete Greece's first battery storage projects by 2026 amid delays and funding deadlines. HELLENiQ Energy leads the way.

Imagine storing summer solar energy for winter heating - that's the holy grail Athens' engineers are chasing. They've already piloted a vanadium redox flow battery subsystem that retains ...

The U.S. Department of Energy has announced the selection of 10 projects as part of a new Advanced Research Projects Agency-Energy (ARPA-E) program, Duration Addition ...

Muscat - OQ, the sultanate's global integrated energy group, on Wednesday laid the foundation stone for its Strategic Fuel Storage Project in Musandam. The project, with an investment of ...

The power plant was commissioned in 2019 and started energy production the same year. The current owner and operator of the Athens BESS facility is Gopher Energy Storage LLC.

Georgia Power has started construction on four battery energy storage systems across the state. The projects will add 765 megawatts of ...

Jinko ESS delivers energy storage at Athens Airport, marking a milestone in a major PV-ESS self-consumption project that supports net-zero 2025 goal.

The power plant was commissioned in 2019 and started energy production the same year. The current owner and operator of the Athens - Coopers Corner BESS facility is Gopher Energy ...

This strategic site is co-located with the existing solar facility adjacent to the Robins Air Force Base and allows Georgia Power to leverage existing infrastructure, thereby ...

A total of 36 battery units, each with a capacity of 3.44 MW, will power a groundbreaking energy-storage project at Athens airport, totaling just over 123 MW. The ...

So next time you switch on a light in Athens, remember there's an entire mountain working overtime. The Athens State Power Pumped Hydropower Storage isn't just moving ...
