---

As an important first step in protecting public and firefighter safety while promoting safe energy storage, the New York State Energy Research and Development Authority (NYSERDA) ...

Funding Opportunities The Energy Storage Grand Challenge includes funding opportunities from participating offices at the U.S. Department of Energy.

This analysis supplements prior studies and evaluates the extent to which diverse types of emerging long-duration energy storage (LDES) and multi-day energy storage (MDS) ...

Summary: Explore how the Awaru Energy Storage Station is reshaping energy storage solutions across industries. From grid stabilization to renewable integration, discover its technical ...

AES" Alamos BESS pioneered grid-scale energy storage. It replaced a natural gas plant, accelerating clean energy and a net zero future.

When evaluating DC energy storage equipment, numerous components come into play that can significantly affect the overall pricing. Type of technology, energy density, and ...

Energy Storage (man-portable; ground vehicle and support equipment applications; and airborne vehicle solutions) Clean Energy Generation (primary but not ...

The adoption of the Clean Energy Standard in New York in 2016 was arguably the first piece of regulatory policy in New York that served as a catalyst for energy storage development in the ...

In this initial solicitation (the 2025 "Index Storage Credit Request for Proposals," or "ISCRFP25-1"), the New York State Energy Research and Development Authority ...

Mitsubishi Heavy IndustriesTokyo, June 30, 2025 - Mitsubishi Heavy Industries Air-Conditioning and Refrigeration Corporation (MHI-AC& R), a Group company of Mitsubishi ...

Mobile Battery Energy Storage Systems (MBESS) can charge electric construction equipment onsite without transporting it off-site to recharge.

Discover how Awaru 20kW inverters revolutionize solar energy storage systems for commercial and industrial applications. This guide explores technical advantages, market trends, and real ...

Pacific Northwest National Laboratory (PNNL) has been awarded the 2025 BCI Innovation Award by Battery Council International (BCI) for its work establishing and launching ...

Under the Long Operation Combatant Naval Energy Storage System project, Siemens Energy will develop a scalable, militarized technology that will improve engine ...

Bulk energy storage incentives are applicable to ESS projects between 5 and 20 MW in capacity and are available through the New York State Energy Research and Development Authority ...

New York plans to hold the first of three bulk energy storage procurements later this year as an Aurora Energy Research report forecasts 30 GW of in-state storage capacity ...

The ESS Energy Center(TM) system was awarded the Smarter E Award for Energy Storage Technologies at the smarter E Award ceremony in Munich, Germany.

It aims to recognize companies that provide supporting products and services such as inverters, energy storage equipment, monitoring systems, and photovoltaic recycling for PV ...
