What is the largest power station in Mozambique?

The 2,075 megawatts Cahora Bassa Hydroelectric Power Station (CBHPS) across the Zambezi River, is the largest power station in Mozambique. The power station is operated by Hidroelectrica de Cahora Bassa (HCB), a Mozambican parastatal company.

How many hydropower stations are there in Mozambique?

There are over 3,400 megawatts of hydropower stations in the pipeline in Mozambique, the majority planned across the Zambezi River, including the 1,500 megawatts Mphanda Nkuwa Hydroelectric Power Station and the proposed 1,245 megawatts extension to the CBHPS.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government views energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

Does Mozambique have a high energy demand?

Mozambique's domestic energy demand is increasing steadily and is expected to continue rising as the country industrializes. The Southern African Development Community (SADC) member countries are expected to have higher demand for power that could be met with Mozambican exports.
