Does Pope Francis support solar energy?

Solar energy plays an essential role in Pope Francis' strategy to address climate change. Since his 2015 encyclical "Laudato Si'," the Pope has been a firm defender of climate action and repeatedly appealed to the international community to take swifter and more decisive measures. agosto 14,2024 08:26 ZENIT Staff Pope Francis,Vatican City

Why does the Vatican have a solar system?

The Vatican's solar shift is a culmination of a political and spiritual mission years in the making. In 2024,the late Pope Francis issued an apostolic letter ordering the construction of an agrivoltaic solar plant to supply the Vatican with energyfrom Santa Maria di Galeria. On the same site,the new solar infrastructure now stands.

Will the Vatican transition to solar energy in 2024?

Nearly one year has passed since Pope Francis revealed his plan for the Vatican state to transition to solar energy as its main power source,as outlined in the 2024 motu proprio Fratello Sole,or "Brother Sun."

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria,some 11 kilometers from Rome,where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity,but it will also be integrated with the land's agricultural needs,combining modern technology with sustainable practices.

ROME (CNS) - Almost a year after Pope Francis set up a commission to develop a large solar-panel array on Vatican property outside of Rome, Pope Leo XIV visited the site and the ...

By May 29th, 2025, that vision was fulfilled, and the Vatican City became one of the only fully solar-powered states in the world, setting a clear precedent on how belief and ...
