---

The Brazil electrochemical energy storage (EES) sector is experiencing rapid growth driven by increasing renewable energy integration, grid modernization efforts, and ...

In a major step toward strengthening Israel's leadership in energy innovation and climate technology, Israeli Minister of Energy and Infrastructure Eli Cohen officially ...

Since 2014, Matthew has been an Assistant Professor at Technion - Israel Institute of Technology where he also holds an Alon Fellowship. At Technion, Matthew leads the ...

Fabrication and assembly of electrodes and electrolytes play an important role in promoting the performance of electrochemical energy storage (EES) de...

Bar-Ilan proudly inaugurated Israel's first National Institute for Electrochemical Energy Storage, established in collaboration with the Technion - Israel Institute of Technology ...

Sodium-based batteries for storing renewable energy cheaply and the recycling of lithium-ion batteries are among the challenges to be ...

In a major step toward strengthening Israel's leadership in energy innovation and climate technology, Israeli Minister of Energy and ...

Founded in 2017 and serving hundreds of customers across Israel, Zing Energy specializes in the trading, engineering, installation and maintenance of renewable energy ...

With continued investment in R& D and strong international partnerships, Israel's energy storage sector is poised for significant growth and global impact in the coming decade.

Sodium-based batteries for storing renewable energy cheaply and the recycling of lithium-ion batteries are among the challenges to be researched at a new NIS 130 million (\$37 ...

The institute--Israel's first of its kind--is set to play a central role in developing energy storage technologies, supporting groundbreaking academic research, and serving as a ...

These attributes have drawn considerable attention in recent years for use in electrochemical energy storage technologies. In particular, bromine-based systems offer an attractive ...

Today, our focus is on unfolding the narrative of energy storage development in Israel--an emerging market with a tale of its own. Change is inevitable, and the energy ...

A first-of-its-kind initiative, the National Institute for Energy and Electrochemical Storage, was inaugurated at Bar-Ilan University in partnership with Israel's Technion Institute. ...

Interdigital electrochemical energy storage (EES) device features small size, high integration, and efficient ion transport, which is an ideal candidate for powering integrated ...

Jerusalem, 4 June, 2025 (TPS-IL) -- Energy Minister Eli Cohen inaugurated Israel's first National Institute for Energy and Electrochemical Storage at Bar-Ilan University in Ramat Gan. The ...

The institute--Israel's first of its kind--is set to play a central role in developing energy storage technologies, supporting ...

These attributes have drawn considerable attention in recent years for use in electrochemical energy storage technologies. In particular, bromine-based systems offer an ...
