-----  
Can a communication service drop attach to a pole?

A communication service drop may attach in-span or directly to a single pole. When attaching a communication service drop cable to a pole, it must be submitted in the Application Portal to ensure compliance with this definition and to ensure that the communication service drop is accounted for as an attachment. 8.

Why should you choose NEMA equipment cabinets?

Whether deployed indoors or in rugged outdoor environments, these NEMA cabinets maintain optimal operating conditions for critical components. Equipment Cabinets Single & Multi-Bay W/EZ Access(TM) Battery Chamber ICEcube offers three distinct mounting configurations to accommodate various applications.

Can I use wood arms for communication cable attachments?

The use of wood arms for any communication cable attachments is not permitted for new installations, except with the prior written approval of PPL engineering personnel for each specific attachment location. 7.

What is the minimum vertical clearance between strand-mounted equipment and communication cables?

A minimum vertical clearance of 6 inches must be maintained between any strand-mounted equipment of cable expansion loops and the communication cables below. Reduced spacing is permitted if agreed to by the existing communication cable owner and communicated to PPL in writing.
