What makes a good solar installation contract?

Like most contracts, home solar contracts can be filled with all kinds of terms, language, and details that the average person might not be familiar with. A good solar installation contract is designed to protect both you and your solar provider, so it's important to understand the various sections and what they mean.

What should a solar panel contract include?

Your solar panels' contract should estimate how much energy will be produced and what savings the client can expect. This section of the agreement should clearly outline how the system's performance will be monitored and what guarantees are given. Solar power has many benefits for businesses and commercial properties, such as

What should I know before signing a solar energy contract?

Pay special attention to any language that connects you with the installation company, and outlines what you can expect the company to do for you. This guide is designed to provide a clear walkthrough of what you should know before signing a rooftop solar energy contract. **What Is a Solar Power Contract?**

What is a solar power contract?

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each.
