Can battery storage help reduce energy bills in Ireland?

As energy prices remain unpredictable and solar adoption continues to grow, Irish homeowners are turning to battery storage to maximise their energy independence. By storing excess solar power for use at night or during peak-rate hours, battery systems are helping thousands of homes cut electricity bills even further.

Can you get a solar battery in Ireland?

The Sustainable Energy Authority of Ireland used to have a grant programme for home battery storage, which ended in 2022. However, homeowners who are getting solar panels installed with the aid of the SEAI grant can also get a solar battery. The system will still qualify for the solar panel grant, but there will be no extra funding for a battery.

Are there grants for solar batteries in Ireland in 2025?

There are no direct grants for solar batteries in Ireland in 2025. The Sustainable Energy Authority of Ireland used to have a grant programme for home battery storage, which ended in 2022. However, homeowners who are getting solar panels installed with the aid of the SEAI grant can also get a solar battery.

How much does a 5kw solar battery cost in Ireland?

A 5kW solar battery will cost between EUR1,700 and EUR3,000 in Ireland. Battery storage systems can be charged with unused solar power or cheaper nighttime electricity. Storing solar energy can be more financially lucrative than selling it back to the grid. Getting a 5kW solar battery in Ireland will cost between EUR1,700 and EUR3,000 in most instances.
