What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3,3R,4,4X,and 6. Our telecom outdoor cabinets are factory tested,field proven,and worry-free.

Should outdoor Telecom enclosures be protected?

Outdoor telecom enclosures need to be protected against outside hazards,such as dust,rain,snow,UV radiation,shock,impact,and even vandalism. Additionally,they should have a design that prevents inside hazards from tampering with your electrical components.

Why is a custom telecom enclosure necessary?

Custom outdoor telecom enclosures from KDM are necessary because they help you constantly adapt off-the-shelf product requirements. KDM relies on both custom and standard NEMA standard telecom cabinets to protect their internal equipment. Our telecom enclosures are manufactured with the highest quality standards under stringent ISO 9001:2005 manufacturing &quality management system.

Outdoor cabinets need to withstand extreme weather conditions, provide lightning protection, and support remote operation and maintenance. 5G ...
