How much solar energy will Ivory Coast have in 5 years?

"In five years, the share of solar energy will be 9%," stated Prime Minister of Ivory Coast, Robert Beugre; Mambé; during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government.

How much power does the Ivory Coast have?

Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government. The Ivory Coast currently has installed power capacity of 2,907 MW, with seven operational hydroelectric dams serving as its primary renewable energy source alongside four existing gas and oil-fired thermal power plants.

What is the Bondoukou solar PV plant?

The Bondoukou Solar PV Plant will generate 85 GWh of clean energy annually, enough to power approximately 358,000 households, while offsetting more than 52,000 tons of CO2 emissions. The project is being implemented by AMEA Goutougo, a project company registered in Ivory Coast and fully owned by AMEA Power.

What is AMEA power's first operational asset in the Ivory Coast?

The US\$60 million project, once completed, will be AMEA Power's first operational asset in the Ivory Coast. Bondoukou, Ivory Coast; 28th February 2025 - AMEA Power, one of the fastest growing renewable energy company's in the region, announced today, the official groundbreaking of a 50MW solar photovoltaic (PV) project in Ivory Coast.

Announced by government spokesperson Amadou Coulibaly in April, the project will commence in the second quarter of 2024 and is expected to be operational by the third ...
