Will South Korea install 540 megawatts of battery energy storage systems?

The Ministry of Trade, Industry and Energy unveiled plans for a nationwide tender to install 540 megawatts of battery energy storage systems (BESS), marking the country's first major government-led deployment of its kind. The project is part of a broader effort to modernize South Korea's power grid and support the transition to renewable energy.

Is South Korea a leader in lithium-ion batteries?

Last Updated on February 21, 2025 South Korea is a global leader in lithium-ion batteries, supplying EVs, electronics, and energy storage systems. Giants like LG Energy Solution, Samsung SDI, and SK On dominate the industry, while Ohsung Co., Ltd. and others contribute to innovation.

Does South Korea have a battery industry?

But South Korea's battery industry faces mounting pressure from China, whose manufacturers, led by CATL, currently account for nearly 90 percent of global energy storage battery capacity. CATL expanded its footprint in January by establishing a South Korean subsidiary, signaling an aggressive push into the local market.

Why are South Korea's EV battery makers moving to North America?

South Korea's battery makers, including LG Energy Solution and SK On, have been squeezed by waning EV subsidies and shifting demand, prompting a strategic pivot toward North America, where demand for grid storage is accelerating.

Liquid-cooled energy storage lithium iron phosphate battery station cabinet Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is
