What are vertical-mount compact outdoor IP55 air conditioners?

Vertical-mount compact outdoor IP55 air conditioners are specifically designed for the cooling needs of outdoor electrical cabinets. They are optimised for door or side-panel mounting and have been designed for high efficiency and low maintenance.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP55 rating?

The correct IP classification directly affects the stable operation of installed equipment. One of the most widely used protection levels is IP55. In this article, we explain what an IP55 rating is, how protection against dust and water is achieved, and which design features allow an IP55 enclosure to withstand outdoor and industrial environments.

Side-Mounted / Wall-Mounted Air Conditioner for Outdoor Electrical Cabinet (2kW / 2.5kW, R134a, IP55)
