Why does New Zealand have so many solar panels?

It's because different areas around New Zealand have varying official sunshine hours according to NIWA. You can read more in our latest article "Off-Grid Solar For Dummies". The PS: Tiny off grid system only comes with six solar panels (2.58kW total).

Do I need solar panels in New Zealand?

It will suit a tiny home, sleepout or cabin with basic power requirements. It may also suit summer-only weekend stays, during good weather. In some parts of New Zealand you will need additional solar panels. This will depend on the sunshine hours for your area and your power-use patterns.

Why is solar power important in New Zealand?

We believe that solar power is a crucial step towards reducing the carbon footprint of New Zealand and making clean energy more accessible. At the same time, we understand that the cost of solar installation can be a barrier for many people.

Its compatibility with both 12V and 24V systems adds flexibility, making it ideal for diverse off-grid needs in New Zealand. Best solar panels new zealand: Our Top 5 Picks ...
