How do I install the nv14 energy storage system?

The NV14 Energy Storage System must be installed on a rigid, flat level surface capable of supporting the full weight of the cabinet. A concrete surface or pre-cast concrete pad is highly recommended. If using a pre-cast pad, the pad must be a minimum of 4" thick and overhang the cabinet by 3" on both sides and front.

Is the nv14 energy storage cabinet a 3R rated cabinet?

The cabinet is a NEMA 3R rated cabinet suitable for outdoor use. The NV14 Energy Storage System requires clearance for cooling and service access. The cabinet must be installed with 2" clearance on right side, 6" on SW1 switch side and 36" clearance to the front.

Can nv14 energy storage system be disassembled?

WARNING: Do not disassemble the NV14 Energy Storage System. If you need maintenance or repair, contact an authorized NeoVolta service dealer. Improper reassembly may result in electric shock or fire. **WARNING:** To reduce risk of electric shock, disconnect all wires before attempting any maintenance or cleaning.

Can the nv24 optional battery cabinet be installed outside?

The NV24 Optional Battery Cabinet can be installed indoors, such as a garage, or outdoors mounted using a concrete or pre-formed pad. The cabinet is a NEMA 3R rated cabinet suitable for outdoor use. The NV24 Optional Battery Cabinet must be installed in a similar fashion as the NV14. Refer to Sections 3 through 3.1.6.
