-----

With around 500 MW of battery storage now online, New York's draft plan has big aims for 2040. New York has formalized its clean energy goals in a new draft State Energy ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...

Ty Daul, CEO of Primergy, discusses how the Quinbrook-launched developer brought online the US's largest co-located solar-plus-storage power plant. Gemini, a ...

The ble energy resources--wind, solar photovoltaic, and battery energy storage systems (BESS). These resources electrically connect to the grid through an inverter-- power electronic devices ...

Florida Power & Light (FPL) is making a groundbreaking investment in battery energy storage systems (BESS), reinforcing its commitment to renewable energy and grid ...

Globally, efforts to achieve carbon neutrality and energy transition are gaining momentum, with photovoltaic plus energy storage emerging as a mainstream trend: ...

Houston, TX - August 8, 2024 - Catalyze, a fully integrated developer and Independent Power Producer (IPP) of distributed renewable energy assets, today announced the launch of its first ...

PowerBank Corporation announced that it has executed a lease agreement on a 5 MW AC hybrid solar plus battery energy storage project known as the NY-Cloverdale Rd. ...

Located in the towns of Hawthorne, Yorktown and Ossining, these projects feature Tesla's MegaPack2XL

technology, delivering 4.9 MW, 4.2 MW and 4.3 MW, respectively.

Enel North America has more than tripled its operational utility-scale storage capacity this summer by bringing five new battery energy storage systems (BESS) online in ...

Today the company announced the launch of its first standalone Battery Energy Storage System (BESS) project in the Bronx, one of the first megawatt-scale BESS projects to ...

This sizable project combines a robust 202 MW solar PV facility with a complementary 104 MW battery energy storage system (BESS), further emphasizing Enel's ...

Pace Digitek wins a contract worth INR1,159.31 crore from SECI to supply a 600MW battery energy storage system. The company will also provide service and maintenance for 10 ...

A technology that uses a group of batteries to store electrical energy, allowing the energy to be released later when needed, the storage system sites -- commonly referred to as ...

Florida Power & Light (FPL) is making a groundbreaking investment in battery energy storage systems (BESS), reinforcing its ...

The storage facility is expected to be operational by October 2025. Meanwhile, Eku Energy's 40 MW/40 MWh BESS in Maldon, Essex, has come online. It is the company's first ...

The implementation of battery energy storage systems in the telecom industry, specifically for enhanced backup power, offers a reliable, scalable, and environmentally friendly solution. By ...

Standalone BESS projects as well as BESS coupled with renewable energy generation components - hybrid plants - are some of the most common ...
