---

In May, within just one week, energy storage companies including Sineng Electric, Inovance Technology, CMSTD, CORNEX New Energy, Trina Storage, Sigenery, SVOLT, and ...

The inherent intermittency and instability of power generation from new energy sources such as wind and solar energy will accelerate the rapid development of the global energy storage ...

China's energy-storage industry is facing challenges in 2025 due to the escalating US-China trade war and tariffs affecting exports to ...

Battery storage systems have emerged as China's most lucrative clean-tech export, with nearly \$66 billion in sales, followed by around \$54 billion in EV exports.

New Energy Battery Solutions: Trade services for energy storage batteries, power batteries, and related supporting products; Lighting Solutions: Global procurement and supply ...

As with most industries treated favorably in the Inflation Reduction Act (IRA) of 2022, the domestic energy storage market was awash with new factory announcements. ...

America's largest energy storage projects are powered by Chinese batteries, while European utilities beg for faster shipments. This isn't science fiction - it's today's \$200 billion ...

On July 18, according to reports from Financial Associated Press, China's cumulative export volume of energy storage batteries reached 8.4 GWh from January to May ...

As demand for outdoor activities and emergency backup power grows rapidly, portable energy storage power supplies--reliable independent energy solutions--have ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

A boom in battery storage has bolstered the demand outlook for lithium in 2026, driving hopes for an accelerated turnaround for an industry struggling with oversupply.

This article provides a comprehensive analysis of the unprecedented surge in Chinese energy storage exports to the Middle East, Australia, and Europe in the first five ...

In this Energy-Storage.news roundup, Hydrostor receives permitting approval for its California project, Hawaiian Electric is set to begin construction on ...

The new energy storage has been applied in power systems with strong production capacity. China's first megawatt iron-chromium flow battery energy-storage demonstration ...

The use of lithium in these applications reportedly exceeded initial projections in the second half of 2025, opening a new market beyond electric vehicle battery production. Battery storage ...

The partners will jointly deliver a grid-scale battery energy storage system in Houston, Texas. Developed by independent power developer SMT Energy, this 371MWh ...

China's new restrictions on the export of batteries could have major impacts on US companies, analysts say, as the US increasingly needs energy storage to support data centers ...

Global energy storage additions are on track to set another record in 2025 with the two largest markets - China and US - overcoming adverse policy shifts and tariff turmoil.
