-----

Dispute Resolution: Round-up of Latest Developments in Asia A new section in Orrick's APAC Energy Pulse In 2025, Asia witnessed important strides in dispute resolution, reinforcing the ...

Gas turbine technologies, battery energy storage solutions (BESS), hydro pump storages, resilient power infrastructure and grid flexibility; Renewable energy and local industrial development in ...

Beyond Kazakhstan, Sungrow is strengthening its presence in Central Asia, working closely with partners to provide reliable and scalable energy storage solutions that ...

Sungrow, the global leader in PV inverter and energy storage system solutions, is spearheading the energy transition in Central Asia with its cutting-edge energy storage system.

Section 3 also presents an inventory analysis of energy infrastructure in Central Asia, an assessment of installed generation capacities and power grids. Evaluation of additional ...

Central Asia has faced major energy and water security challenges. Technically, water from the Pamir and Tian Shan Mountain ranges could be sufficient...

Sungrow and CEEC have completed the largest energy storage project in Central Asia. This significant achievement took place in Uzbekistan, specifically in the Peshkun Solar ...

South East Asia offers huge potential for the energy storage industry with the region keen to improve its energy security by both ...

As a leader in PV and energy storage markets, Sungrow has supplied Kazakhstan's largest solar power plants

and continues to support Central Asia's renewable ...

As part of this new direction, China will prioritize the integration of energy production and consumption systems, promoting the use of smart grids and energy storage ...

With growing economies and populations, countries in Central Asia need ever more energy to fuel their development. At the same time, ...

The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical energy storage facility in Central Asia, was successfully ...

The World Bank Group, Abu Dhabi Future Energy Company PJSC, and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt solar ...

Central Asia has the potential to make an important contribution to the global energy transition. Sungrow has held a leading position in both PV and energy storage ...

Projects such as Voltalia's 200 MWh battery storage integration in Uzbekistan and Kazakhstan's plans for large-scale wind projects with storage solutions highlight the region's ...

At the levels currently being considered in national plans and regional studies, increased trading of electricity and low-carbon fuels between Central Asia and other regions could have an ...

South Asia Energy Storage Study The South Asia Energy Storage Study offers a comprehensive analysis of the potential role of energy storage technologies in the South Asia ...

French renewable energy power producer Voltalia has begun construction of its Artemisya "strategic cluster" project in Uzbekistan, Central Asia.
