Why do New Zealand homes need battery storage?

In most New Zealand homes, a large proportion of the energy produced by solar panels is sent back to the grid because it's generated when it's not needed, i.e., the middle of the day. However, adding home battery storage to a new or existing solar power system allows you to store your unused energy.

What is a PowerVault solar cabinet?

The PowerVault is MEDA's flagship prebuilt solar cabinet-- our most powerful and scalable system to date. Designed to meet the needs of serious off-grid homes, rural properties, and remote commercial setups, it comes fully assembled with premium Victron and Dyness components and is housed in a heavy-duty, IP-rated cabinet.

What is a Tui solar nest cabinet?

More help? GridFree's Tui Solar Nest Cabinet is a complete, all-in-one solution for off-grid applications. This pre-built, IP54-rated cabinet is ideal for baches, tiny homes, and lifestyle properties without access to grid power, offering a faster, easier, and more cost-effective installation.

What is a low voltage energy storage cabinet?

Cabinet is for low-voltage energy storage systems. Modular design maximising energy storage flexibility, Lithium Iron Phosphate Cell (LFP) inside, enabling a very safe with a long-life battery, Quick connector to save installation time. The furniture-like design suits both indoor and outdoor installation. Compatible with most inverters.
