Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

Rystad Energy research and modeling has, however, uncovered the truth behind the persistent sales - electrifying heavy-duty vehicles, especially trucks, is essential to lowering overall fuel ...

In August, Northern Lights, the world's first cross-border commercial carbon transport and storage service, injected carbon dioxide (CO 2) collected from a cement factory ...

As such, Norway had the highest share of zero-emission vehicles in both car stock (16%) and car sales (64.5%) in 2021. Though Norway has been ...

This setup enables the company to store excess solar energy and use it to charge vehicles, reducing dependence on the grid and maximizing solar utilization.

Norway has officially launched Longship, the world's first complete carbon capture and storage (CCS) value chain - from industrial capture to permanent seabed storage.

Loop Energy Inc. and Morello Giovanni S.r.l. (Morello) announced signing of a strategic cooperation agreement¹⁵ for the development and manufacture of heavy-duty hydrogen ...

The Energy Transition Norway 2022 report (a joint effort between DNV and Norsk Industri) forecasts the country's GHG emissions, energy demand, and energy supply through to 2050, ...

Another energy transition firm on my list is the Norwegian battery innovator Morrow Batteries, which is

focusing on lithium-iron-phosphate batteries for heavy-duty ...

In August, Northern Lights, the world's first cross-border commercial carbon transport and storage service, injected carbon dioxide ...

Enter the Oslo Heavy Industry Energy Storage Cabinet Model, a game-changer designed to tackle energy volatility like a Norwegian winter storm. But what makes it the Swiss ...

With growing attention on environmental impact, the company aimed to leverage renewable energy for EV charging while minimizing peak demand costs and reducing CO2 ...

Beyonder is a Norwegian energy tech company that has developed the next generation of sustainable Li-ion capacitors and supercapacitors for the heavy-duty industry ...

Nordics playing a significant role in battery boom Discover the latest solutions Find more Solution Battery modules for energy storage - sustainable, ...

Discover how industrial energy storage vehicles are revolutionizing heavy industries and renewable energy integration. This guide explores market trends, technical innovations, and ...

Now, with an eye to a future when earnings from those resources may decline, Oslo wants to parlay the skills of the petroleum industry and its favorable geology into a kind of ...

of Norwegian Hydrogen Forum. From left: Tor Kristian Haldorsen, Ingebjørg Telnes Wilhelmsen, Lin April Læstegard, Marika ammonia as energy carriers. As of 2025, our over 100 members ...

The Norwegian firm aims to provide green hydrogen to meet the needs of the maritime, heavy transport, and construction machinery sectors in the region by 2026. This project represents ...
