-----  
What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature,moisture,ice,shock hazards,and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site,typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.
