What are container port fees?

Container port fees refer to the costs associated with the handling of goods at seaports. These fees are charged by port authorities and operators for services such as unloading, storage, and processing of containers. Typically, these fees cover: Terminal handling charges (THC): Fees for moving containers from the ship to the terminal.

What is the difference between Port charges and container charges?

Port charges encompass a wide range of fees associated with using port facilities. Container charges are more specific to the handling and movement of containers within (and beyond) the harbor. Some of the port charges are predictable; others appear out of nowhere.

What are container charges?

Container charges are more specific to the handling and movement of containers within (and beyond) the harbor. Some of the port charges are predictable; others appear out of nowhere. The structure and amount of port charges can vary widely depending on the port location, the type of cargo, and the services required.

How can I avoid paying container storage fees at ports?

If you want to avoid paying container storage fees at ports, move your containers to depots and pay this charge instead. The most common port charge is the demurrage and detention. The carrier levies this fee for delayed use of containers within the terminal.
