How much does a 50kw Solar System cost?

On average, a 50kW solar system will cost around \$49,068, including government rebates and other incentives. The true range depends on your location and the brand of solar panels and inverter you go with. The installation cost is usually included in this price range, as a certified installer can only do it. What's the payback period on 50kW solar?

Can a 50kw Solar System be sold back?

Once you have your 50kW solar system installed, you can quickly reduce its payback period through the feed-in tariff program. Under this program, select energy companies around the country pay solar owners to sell back the excess energy they produce from your solar system. The program favors residential and SME solar installations.

How much power does a 50kw Solar System produce?

For example, a 50kW solar system in Sydney, NSW would produce about (3kWh x 50kW =) 150kWh of power on a day in the middle of winter, whereas in the summer output from the same 50kW solar PV system would be around (5kWh x 50kW =) 250kWh. A similar system in Brisbane might produce as much as 175kWh in winter and 275kWh on a summer day.

Does a 50kw solar panel system come with a warranty?

Our 50KW solar panel system comes with a 25 year performance warranty, 10 year manufacturer's warranty, and 5 year warranty on workmanship (including installation). To find out if a 50KW solar panel system is right for your operation, give us a call on 1300 274 737 or get a quote now.

Compare 50kW solar panel system prices in Australia. Save on battery installation and total cost with top-tier commercial solutions from Arise Solar.
