Will electric forklifts be powered by lithium-ion batteries?

"In the past, the electric forklifts, reach trucks, and pallet trucks we used are all powered by lead-acid batteries, now we have a plan of switching them to lithium-ion battery model with faster charging and free maintenance." said the manager of Util S.P.C.

Are lithium ion forklift batteries better than lead-acid?

Li-Ion forklift batteries offer a smarter, cleaner alternative to lead-acid by reducing maintenance and improving efficiency. Require little to no maintenance compared to lead-acid. Built with advanced, evolving technology for higher performance. Provide cleaner, more reliable power for demanding operations.

How long do electric forklift batteries last?

In addition, our lithium-ion batteries enjoy 5 years / 10,000 hours warranty. You do not need to invest a lot to buy totally new electric forklifts, but only at an affordable price for the batteries, while you can benefit from the same quality and performance.

Do electric forklift batteries make a difference?

Whether you run a single shift or 24/7 operations, the right battery makes a difference. From fast-charging Lithium Ion to cost-effective Lead Acid or versatile TPPL, we've got a solution that fits your goals and budget. Our electric forklift batteries are designed to keep your business moving.

BSLBATT; LiFePo4 Battery Company is an ISO 9001:2008 certified custom battery pack manufacturer specializing in Lithium-Ion and Lithium Primary custom battery packs.

Experience efficiency and sustainability through innovative electric forklift 24v lithium ion battery pack technology. These batteries offer optimum energy storage while maintaining environment ...
