-----  
What does Romania want from energy storage projects?

Romania wants mature projects that can be implemented quickly and that can help balance the system, he was quoted as saying. Romania has allocated EUR 80 million under its National Recovery and Resilience Plan (PNRR) for energy storage projects, which is expected to result in contracts for a total of 1.8 GW of capacity, according to Burduja.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

What is Romania's largest battery storage system?

In April, Romania's largest battery storage system, of 24 MWh, was put into operation. It is the first phase of a project totaling 216 MWh. The facility is connected to the Mireasa wind farm of 50 MW, while a 35 MW solar power plant is expected to be added by the end of 2024.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Does Romania have a storage policy? In response to EU Regulation 2019/943, which clarifies the role of storage and its ownership status, the Romanian authorities ...

Can storage technologies improve energy security in Romania? Such enhanced legislation is needed for implementing the Romanian National Energy and Climate Plan (NECP), which lists ...

LSG is once again a pioneer and leader in technology, this time in Battery Energy Storage Systems LSG Romania started the construction works for ...

Polish solar developer and independent power producer (IPP) R.Power SA has obtained EUR 15 million (USD 15.5m) in grant financing from the Romanian government for a ...

With its ultra-large capacity in the ampere-hour range, it is specifically developed for the 4-8 hour long-duration energy storage market. By using ?Cell 1175Ah, the energy storage system ...

Enterprising companies in Romania's energy storage market have expansion, with recent announcements from two major players, Nova Power & Gas and Visual Fan, set to add ...

Meeting of the Nuclear Alliance in the margin of the Energy Council, October, 20, 2025 Ministerul Energiei sustine o tranzitie energetica echilibrata, cu mentinerea capacitatilor ...

Based on its renewable energy potential and considering the national energy sector's current characteristics - generation assets, interconnections, market design, ...

An assessment of Romania's potential for renewable energy - update with offshore; The electricity demand evolution in Romania towards 2030 - update and impact of ...

Outdoor energy storage systems are revolutionizing how Romania manages power reliability across industries. This article explores tailored solutions for renewable integration, industrial ...

Romania expects its overall energy storage to amount to at least 2.5 GW in operating power at the end of 2025, and to expand to as much as 5 GW a year later, local ...

Romania enters 2026 with renewed momentum across its solar and energy-storage markets -- but also with a sharper sense of discipline. The era of inflated pipelines ...

LSG is once again a pioneer and leader in technology, this time in Battery Energy Storage Systems LSG Romania started the construction works for a 7 MW Battery Energy Storage ...

Imagine this: Bucharest's energy storage systems now have enough capacity to power every lightbulb in Romania for 47 minutes. Not bad for a country that once relied on ...
