---

The Electrica Group, a leading player in the Romanian energy sector, has announced a significant investment in energy storage with the launch of a project to build 15 ...

The largest battery energy storage capacity in Romania - 200 MW power and 400 MWh capacity - was operationalized on Friday, Minister of Energy, Bogdan Ivan announced.

Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in ...

Romania is in the second stage of energy development, with an estimated battery storage requirement for utility-scale projects of approximately 2-4 GW by 2030. According to ...

Polish solar developer and independent power producer (IPP) R.Power SA has obtained EUR 15 million (USD 15.5m) in grant financing from the Romanian government for a ...

Nova Power & Gas's 400 MWh project in Cluj County is the largest battery energy storage system (BESS) to date to have been connected to Romania's grid.

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or building standalone energy storage facilities. ...

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.

Romania has commissioned its largest battery energy storage system (BESS) to date: a 200 MW / 400 MWh project in Cluj County, developed by private investor Nova Power & Gas.

Jinko ESS has announced the commissioning of three units of its 3.44MWh Utility G1 liquid-cooled energy storage system for Romania's Zorleni project which, designed to ...

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities - wind, ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest ...

Furthermore, Romania launched an EUR 150 million program for behind-the-meter battery energy storage systems developed in conjunction with existing renewable energy ...

Romania expects its overall energy storage to amount to at least 2.5 GW in operating power at the end of 2025, and to expand to as much as 5 GW a year later, local ...
