What is an IP66 19" data rack?

IP Enclosures' IP66 19" data racks are purpose-built to protect critical data network, telecommunications and rack-mounted equipment in demanding outdoor and industrial environments.

How many fans does the IP55 outdoor server rack have?

The IP55 outdoor server rack also has two or four fanswith a dust-proof cover located at the top of the cabinet for greater airflow/cooling. The fans are serviceable and the front door dust filters are easily accessible for cleaning. All fixtures are internal to the cabinet to provide a secure solution.

Why do I need an outdoor server rack?

All of our outdoor server racks are built to protect your expensive network equipment from exposure to the environmentsuch as dust or water. The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood.
