The U.S. Department of Energy granted $70 million to Xcel Energy to help build clean energy storage batteries in Colorado and Minnesota, cementing the financing for ...

The Company develops solar and Battery Energy Storage System (BESS) projects that sell electricity to utilities, commercial, industrial, municipal and residential off-takers.

As part of its ambition to get to net zero by 2050, TotalEnergies is building a world class cost-competitive portfolio combining renewables (solar, onshore and offshore wind) and ...

Hydrostor"s Willow Rock Energy Storage Center, which has an astounding 50+ year life expectancy, will use renewable energy or excess power from the grid to heat compressed ...

4. Small-Scale and Distributed CAES: Beyond large utility projects, smaller-scale CAES may find applications in remote microgrids, farms, or eco-resorts. As the technology ...

Obtain a review of solar, storage, and other DER generation projects in New York State that received funding through NYSERDA. This dataset also includes detailed information each of ...

Listed below are the five largest energy storage projects by capacity in the US, according to GlobalData"s power database. GlobalData uses proprietary data and analytics to ...

The Edwards &  Sanborn solar storage project is partially located on private land and the Edwards Air Force Base in Kern County, ...

New York Gov. Kathy Hochul, D, has issued nearly $15 million in funding to four long-duration energy storage demonstration projects, the New York State Energy Research ...

MOJAVE, CA -- Mayor Karen Bass today announced the completion of the Eland Solar-plus-Storage Center project, one of the largest solar and battery energy storage projects ...

We look at five early-stage storage technologies that could one day help to underpin a new economy powered by near-limitless zero-carbon renewable energy.

The project is partly located on the Edwards Air Force Base in Kern County, California, home to many other large solar projects in the US.

The Edwards and Sanborn project is a combination of a solar and energy storage facility, located in southern Kern County, California, US.

In September 2023, DCAS announced a power purchase agreement (PPA) with the New York Power Authority (NYPA) to expand clean energy generation on more than 60 ...

Dominion Energy"s Scott Storage and Solar facility in Powhatan County has been operational since 2022. It provides 12 MW of storage.

Terra-Gen and Mortenson have announced the full substantial completion of the Edwards & Sanborn Solar + Energy Storage project, the largest solar plus energy storage ...
