Under the bill, solar and wind projects that start construction by July 4, 2026 will avoid a deadline to be placed in service by the end of 2027. Such projects should generally ...

Summary This whitepaper presents the considerations on the financial implications for solar projects resulting from the One Big Beautiful Bill (OBBB). In short, the OBBB steps ...

On May 22, 2025, the House passed an amended version of the "One, Big, Beautiful Bill," which would make the investment tax credit (ITC) under ...

The project includes a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels and up to 1,150 MW (4,600 megawatt-hours) of battery storage - enough to ...

As the renewable energy landscape continues to evolve, two significant projects are taking shape, poised to commence operations in the first half of 2026.

The project is expected to avoid 419 million pounds of GHGs annually, which is equivalent to removing 44,000 gas-powered cars from the road for one year or planting 3.1 ...

Energy storage projects play a critical role in enhancing grid resilience across the U.S., serving as a complement to wind and solar and enabling the reliable delivery of ...

If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit.

Shelby County will welcome its largest ever economic development project with a \$700 million battery

manufacturing facility in Shelbyville, Kentucky.

An up to 4,600 MW battery energy storage system (BESS) will be paired with a solar installation of 3 million solar modules providing 1.1 ...

ESTEL outdoor battery cabinets protect solar batteries from weather, enhance efficiency, and extend lifespan, ensuring reliable energy storage.

ACCIONA Energía has signed an agreement with Qcells, a subsidiary of the South Korean industrial group Hanwha Corporation, to ...

Geothermal Heat Pumps Investment tax credits can be claimed currently on geothermal heat pump projects on which construction starts for tax purposes by the end of ...

More than 80 battery peakers with power storage capacities of at least 100 MW are under construction, the largest of which is AES Corp."s 700-MW Rexford 1 Battery Storage ...

The project provides power for 135,000 homes and has created an estimated 400 construction jobs. The electricity generated from the 300 MW solar project, combined with a ...

"When this project was envisioned over five years ago, we knew solar + battery storage projects of this scale would play a critical role in accelerating the UK"s transition and ...

An up to 4,600 MW battery energy storage system (BESS) will be paired with a solar installation of 3 million solar modules providing 1.1 GW of solar, it will generate enough ...

The project will feature a 1,150-megawatt (MW) solar facility with approximately 3.1 million panels, alongside up to 1,150 MW (4,600 megawatt-hours) of battery storage--enough ...
