How long does a solar lamp last?

It recharges in 7 hours and features impressively long life expectancy of 50,000 hours,making it a great purchase. The best part is that this solar lamp can be used outside in any weather,too. The high quality LED has a brightness of 150LM,which isn't the brightest option on the list.

How much power does a solar light use?

This indoor solar-powered light has a sleek modern design (6.3? diameter) that looks appealing. It offers 3Wof power that's supplied by sunlight in the daytime. The solar panel stores power for night lighting with built-in 400mAh lithium battery,lighting up in darkness and lighting off in sunrise.

How to choose a solar lamp?

It's preferable to opt for indoor solar LED with larger battery capacity and low energy consumptionto ensure it works longer per charge. Some products,such as the KK.BOL Portable Solar Lamp,come with a convenient USB Andriod cable that allows you to charge the batteries in those situations when there is no sunlight.

Can a solar light be used indoors?

The lamp can be used indoora with 3m cable from solar panel to the light. Also,the solar panel can be adjusted to a variety of angles,which ensures the panel can absorb enough light from sunrise to sunset,so the light can be used for 8 - 12 hours after being fully charged. Thus,this product has a long working time and short charging time.
