-----  
How can Southeast Asian companies support infrastructure investment in Australia?

While strong demand for infrastructure investment in Australia will continue, collaborative business partnerships and delivery models with Southeast Asian companies - such as the Gamuda model (see case study) - can help ease these constraints and bring opportunities for two-way mobility of skilled and semiskilled workers.

What is enhancing connectivity across Southeast Asia?

Significant investments in infrastructure are enhancing connectivity across Southeast Asia. Key projects include the development of submarine cables like the Southeast Asia-Japan Cable Network (SJC) and SEA-ME-WE cable system, which ensure high-speed data transmission across countries.

Which companies have invested in Southeast Asian Digital Infrastructure?

Past investments in Southeast Asian digital infrastructure have included: Nxera, a Singapore-headquartered data centre platform serving Asia Pacific; Pinnacle Towers, a digital infrastructure platform in Asia with a strong focus on the Philippines; and OMS Group, a leading neutral subsea telecommunications cable services provider.

Does Export Finance Australia finance infrastructure projects in Southeast Asia?

In addition to financing infrastructure projects in the Pacific, Export Finance Australia (EFA) has started financing a pipeline of infrastructure projects in Southeast Asia, following legislative changes in 2019 to extend EFA's financing to overseas infrastructure. This includes two projects EFA has financed in Vietnam.
