Should batteries be stored in a battery safety cabinet?

If comprehensive fire protection is required for battery storage, battery safety cabinets are the right choice. On the other hand, if the focus is purely on storage and orderly charging, normal charging cabinets are sufficient. Should defective batteries be stored?

Why should you choose Lista battery charging cabinets?

The battery charging cabinets from LISTA offer an attractively priced and very versatile option for storing and charging the batteries of smartphones, tablets, notebooks and many other devices.

What is a simple battery cabinet?

Simple battery cabinets are usually charging cabinets for lithium-ion batteries. These cabinet types are characterized by the fact that they have a charging option for rechargeable batteries / mobile devices. Depending on the battery cabinet and design, these are usually one or more 230V sockets and increasingly also USB charging sockets.

Are battery cabinets fireproof?

Battery cabinets comprise two product classes - on the one hand rather simple battery charging cabinets, which have a charging option or a power connection, and on the other hand fireproof safety cabinets, which have a particularly high safety level for the storage of lithium-ion batteries and are usually also fire protection-certified.

Here you will find a large selection of battery cabinets - both fire-resistant safety cabinets / fire protection cabinets, but also simple battery charging cabinets without dedicated fire protection.

The standard cabinet is suitable for all maintenance-free batteries. It can be used in all fields, especially, where the customer wants a contact ...
