What is a datasafe Xe Battery Cabinet?

DataSafe HX battery cabinet systems are factory pre-wired to minimize installation time. The cabinet design optimizes the overall footprint. DataSafe XE batteries, manufactured with Thin Plate Pure Lead (TPPL) technology, are specifically designed for shorter duration autonomies.

How many batteries can a battery cabinet support?

The battery cabinets are available in five different mechanical dimensions. They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support a maximum Direct Current (DC) voltage of 800Vdc.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What is a VRLA battery cabinet?

They are designed to accommodate standard Valve Regulated Lead Acid (VRLA) batteries with a capacity range of 24Ah to 105Ah (C10). The battery cabinets are available in five different mechanical dimensions.

Electronic Systems Support Business type: manufacturer, wholesale supplier, service, precision Sheet Metal
Product types: lead acid batteries, emergency backup batteries, lead calcium ...

Our Top Terminal Series of Battery Cabinets are NEMA I rated and constructed of welded, heavy gauge steel. Cabinets in this series are available in multiple colors of Durable, corrosion ...

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS)
