Where are Telecom cabinets made?

In our own 10,000 sq.m. production facilities in Ukraine, we produce outdoor telecom cabinets and shelters, air conditioners, and heat exchangers for cabinets, free cooling for shelters, electrical enclosures, and remote monitoring systems for telecom networks.

What is a telecommunications enclosure?

Telecom enclosures are indispensable for housing and safeguarding critical communication equipment in outdoor environments. These purpose-built cabinets are engineered to protect susceptible telecommunications equipment, such as routers, switches, power supplies, and network components, from environmental elements and potential security threats.

What are the advantages of outdoor Telecom cabinets?

Outdoor telecom cabinets with increased anti-vandal protection and 2 climatic compartments. Outdoor climate cabinets with electromechanical lock and remote door opening system. Ensuring a high level of anti-vandal and corrosion resistance when building a base station in conditions of remoteness.

Outdoor telecom street cabinets for mobile phone base stations, including macrocell, microcell and metrocell sites, offering maximum protection against extreme weather conditions and vandalism.
